

Job Opening: Civil Engineer

Ash Properties & Construction Ltd. – Lagos, Nigeria

Ash Properties & Constructions Ltd. is hiring a **seasoned Project Manager (Civil Engineer)** to lead the execution of high-rise residential and commercial developments in Lagos. This position requires technical expertise, strong leadership, and hands-on experience managing multi-storey construction projects.

Position: Project Manager – Civil Engineer

Location: Lagos (On-site)

Employment Type: Full-Time

Experience Level: Senior Level 5+ Years

Industry: Real Estate / Construction / Engineering

Key Responsibilities

- Oversee the full lifecycle of **high-rise construction projects**, from planning to delivery
 - Design and supervise civil engineering projects, including factory setups, warehouse expansions, and industrial infrastructure.
 - Develop and maintain **project timelines, budgets**, and documentation
 - Lead project teams and coordinate with architects, engineers, consultants, and contractors
 - Conduct **on-site inspections** to ensure quality, safety, and design compliance.
 - Supervise subcontractors and manage construction schedules and materials
 - Prepare and present project status reports to management
 - Resolve project and site challenges with timely, practical solutions
 - Ensure project execution aligns with local and international construction codes, safety protocols, and environmental standards.
 - Implement quality control measures to enhance project efficiency and durability.
 - Provide technical guidance to construction teams and resolve on-site issues.
 - Prepare and review blueprints, technical drawings, and cost estimates.
-

Candidate Requirements

- Bachelor's degree in Civil Engineering (**Master's or PMP certification preferred**)
- Minimum **5 years' experience** managing **multi-storey or high-rise developments**
- Strong understanding of **building regulations**, construction law, and Lagos State development processes
- Proven ability to coordinate with **regulatory agencies**, including Physical Planning, LABSCA, LASPPPA, and strong knowledge of other construction regulations and safety standards.
- Excellent knowledge of construction materials, techniques, and site management
- Demonstrated **project leadership skills** and attention to detail

- Excellent problem-solving, leadership, and project management skills.
- Ability to work under pressure and manage multiple projects simultaneously.
- Strong communication and interpersonal skills.
- Proficient in AutoCAD, STAAD Pro, MS Project, Primavera, or related software
- Must provide **verifiable proof of prior project involvement**, including references, images, or documentation

Additional Skills

- Experience in construction of Highrise, High-End buildings in Lagos
- Understanding of sustainable techniques and cost optimization.
- Familiarity with contract management and vendor coordination.
